How to gain new workplace skills with 24/7 access!

Benjamin Franklin said it best: An investment in knowledge always pays the best interest.

And he's right. According to the **Association for Talent Development (ATD)**, companies that offer comprehensive training programs have 218% higher income per employee than companies without formalized training.

But it doesn't stop there. These companies also enjoy a 24% higher profit margin than those who spend less on training.

Here's the problem: Traditional in-house "classroom" training is expensive. Not to mention, the inconvenience to your staff (and their families) when they're asked to give up weekends, and a few nights that could also include travel.

Well, Alliance Learning has the solution for you. We've developed dozens of online courses which makes it very suitable and affordable for your staff to gain new career-enhancing skills!

And we'd like to offer you a shameless bribe to try us out: **A 74% SUSW rebate.** (click [here for more info.](#))
