

**\*\*\*Urgent Investor Alert! \*\*\***

**Corporate Raider Carl Icahn owns 3.92 Million Shares of this company that has a \$51.21 billion market cap.**

**And Warren Buffet owns a 5% stake in it. So let me ask you:**

**Are you savvy enough to get in now?**

*"With my **Big Money Watch** that profiles 15 top managers' stock picks - we've had 11 out of 12 winners with cumulative gains of 314.38%"*

*And the best is yet to come: Now our new **Profit Guide - 'Technology Stocks: Back to the Future'** has the potential to return 100% or more this year. and it's yours absolutely **FREE!**" (Value: \$49)*

*~Maurice Barnfather  
Editor - **Big Money Watch***

## Welcome To **Big Money Watch**,

Something BIG is going on at this company. and "The Players", Icahn and Investor Advocate Nelson Peltz (whose stake is 3%) aren't tipping their hands about it.

And that also includes the greatest value investor of all time, Warren Buffet. According to ***The Wall Street Journal***, the "Oracle of Omaha" isn't revealing whether he's siding with the activists. or merely investing in a company with strong brands and great potential.

But make no mistake: Buffet's appearance on the share register suggests that this food conglomerate -- whose second quarter earnings rose to \$707 million or 44 cents a share from \$682 million or 41 cents a share a year earlier -- is a strong reason why it's on **Big Money Watch's** recommendation list.

Look -- the plot thickens: This company just offered \$7.2 billion for the biscuit operations of Danone. **This deal alone gives it a major foothold in key emerging and developing markets such as China and Russia.**

And with Icahn, Peltz, and Buffet on board... just like the song says, "This could be the start of something big."

So it should come as no surprise to you that the nation's top 15 money managers routinely earn profits that put your broker to shame... **and can absolutely help you find the next big winner and help safeguard your retirement!**

### **Turns \$10,000 into \$201,800 in just 3 years!**

For instance, take John Montgomery, manager of Bridgeway Capital Management.

The Street laughed when John began applying computer modeling methods, which he used as a research engineer in the late 1970s, to investing.

But they're not laughing now: Barron's recently named 4 of his funds among the hottest 100 in the U.S. One of these funds is up an impressive 34% annually over five years.

In June, 2004, John bought Viragen, a promising biotech start-up that specializes in developing protein-based drugs designed to treat cancer and other malignant diseases.

Within 4 months -- ready for this? -- He locked in a gain of 857% on the trade - multiplying his money nearly tenfold. And this is just the tip of the iceberg.

You see, John Montgomery made a killing with Navarre, a distributor of home entertainment PC software, music, and DVDs - buying at 85 cents and selling at \$18

for a whopping **2,018% gain.**

**And get this: An initial position of \$10,000 would have grown into a \$201,800 windfall. in just over 3 years!**

With results like these, you can see the wisdom of ignoring your broker's advice. and buying the same winning stocks that the world's top money managers do.

## **30 years of experience behind every stock pick**

Please allow me to introduce myself. I'm **Maurice Barnfather**, Editor for **Big Money Watch** - the only stock-picking advisory that has consistently raked in big profits tracking the stock picks of today's top 15 best performing money managers. (Or as I call them, The Dream Team)

Before starting at **Big Money Watch**, I built my career as an international financial journalist with more than 30 years experience writing about business and the stock market for leading publications such as *Forbes*, *The Times of London* and *The Economist* magazine.

I've also spent time as Director of Corporate Finance, mergers and acquisitions, at a London-based investment bank, patiently thinking my way into a detailed understanding of the corporate entity, its culture, its joys and its frustrations.

**My friend, this is my life's work. If you're looking for a neutral observer who meticulously separates facts from opinions, presenting his point of view along with the necessary research for the investor to form his own investment judgments. then you've found the right guy. Make no mistake: I am here to present to you.**

## **An investment strategy that allows you to follow the "profit trail" of the SMART MONEY**

**Can these world**

And I proudly say that I've proven time and time again that picking stocks of Big Time Money Managers who do their BIG TIME due diligence with the companies

## famous money managers pick your next winning stock?

**Scott Black**

**Arnold Snider**  
Deerfield Management

they invest in -- unequivocally works!

The logic behind **Big Money Watch** is quite simple and flawless. and it's already earned handsome profits for our subscribers who participated with our recommendations.

Here's the nitty gritty: The "Smart Money" on Wall Street - the "Big Kahuna" money managers at the nation's largest mutual funds, hedge funds, brokerages, and pension funds - **generate superior returns that put your stock broker to shame.**

And here's why it makes perfect sense. When you and I buy a stock, we are risking thousands of dollars of our own money. And while losing really hurts, NO ONE'S going to fire us if a stock we buy goes down.

Now on the flip side, when a large institutional investor buys a stock, **he is putting millions of dollars of capital - not to mention his own job - at risk.**

**In a nutshell: These players are NOT rewarded for mediocre results!**

Therefore, these institutional investors spend a fortune on research - gathering intelligence that you and I, as individual investors, could never, ever, afford to buy.

Then one day the idea hit me like a bolt of lightning. and it made perfect investing sense. So much so that I wondered why I never implemented this strategy before.

**Here it is: Why settle for the inferior research - the analyst reports - that other individual investors use to pick stocks?**

Think about it: Why on earth would you want to invest harder when you can simply invest smarter?

Especially when the big money managers are doing the heavy lifting. You see, they're REQUIRED by law to file a quarterly 13F form that discloses their current holdings (they also must file a 13G when their

**Peter Spano**  
Preferred Int. Value Fund

ownership position surpasses 5% of a company's shares).

**Harry Lange**  
Fidelity Magellan Fund

And that's precisely how my new investment advisory service, **Big Money Watch**, was born!

**David A. Tepper**  
Appaloosa Management

**James Tillinghast**  
Fidelity Low-Priced Stock Fund

## **4 point profitable investment keys that have helped give us returns of 222.81%**

So how do I do rack up impressive gains month after month?

1. **I continually compare the performance of all of the big money managers** to determine the 15 pros who are at the top of their game today. Some managers remain winners for a long time. But many run hot and cold.
2. **I keep running portfolios of all the stock picks** of these top 15 money managers. those with the best performance right now.
3. **I select their top picks** - the "best of the best" - and invest only in those stocks for our own Model Portfolio.

Here's the unvarnished truth: Our portfolio's success is that NOT only a particular money manager's stock will ever make it to our portfolio. but I also give laser like focus and make every stock go through a stringent selection process. **In a nutshell: YES, many stocks are available - but FEW are chosen!!!**

**Here are the strict guidelines that the company's stock must have:**

1. good operating margins
2. a healthy balance sheet
3. solid top-line profits
4. and good valuation relative to a company's long-term growth.

With the **Big Money Watch** service, we tell you about every **Form 13F** and **13G filing** -- and every stock -- all of the 15 best-performing money managers have added to their portfolios.

Not only that, but we also maintain a "best of the best" portfolio - a highly Selective Portfolio consisting of the top stock picks of each of these managers.

And so far, our **Big Money Watch** system is operating with all the precision of a Swiss Army knife. Here is just a sample of closed positions from our Model Portfolio:

- 15.09% profits on Fairfax Finl HLD
- 102.92% PROFITS on Dynamax
- 44.09% PROFITS on MCDERMOTT INT
- 28.20% PROFITS on Stealthgas INC
- 41.98% PROFITS on ARCHER DANIELS
- 26.36% PROFITS on Helen of Troy LTD
- 42.53% PROFITS on COMPASS MINERALS
- 29.60% PROFITS on Sunterra CP

**A total Cumulative return on these positions was 314.38%!**

And get this! Our present open positions are doing excellent and right on track delivering subscribers (who participate with us) impressive returns of **35%... 36.27%... 28.53%... 30.61%... 123%... 58%... 104.78%**.

**[Lock in your Returns NOW! 100% Risk-Free Trial to Big Money Watch. PLUS, 2 Special Profit Reports absolutely FREE!](#)**

Sick and tired of watching "the smart money" get rich on the backs of individual investors -- like you and me? Well, if you can't beat them, why not join them with.

## ***Big Money Watch* as your personal guide to the top-performing money managers?**

Now look at this logically. Given that the Big Money Managers account for about 80 cents of every dollar traded on Wall Street, tracking their stock plays -- and following our recommendations -- gives YOU the power to achieve superior investment results.

Better yet, tracking only top-performing fund managers who have proven their expertise, we are able to uncover the next BIG investment ideas before they make the front page of the Wall Street Journal.

Let's pause for a moment: What do you think all of this proprietary investment information will cost you? \$2,500 -- \$3,500? Let's assume \$1,500 is reasonable. Rest easy, you won't even come close to paying that.

Before I reveal to you what it all costs - let me share what you're going to receive once you make the wise choice of subscribing to **Big Money Watch**...

- **FIRST**, you get our monthly **Big Money Watch** newsletter.

Each content filled issue gives you:

- The two best investment ideas that we recommend as immediate strong buys. These new stocks are added to our model portfolio and will be tracked and updated from that point on.
- An updated model portfolio of stocks that we track - keeping you FULLY INFORMED on events that are impacting (or will impact) their prices.

Not only that, but each issue also introduces you to a new money manager we intend to track from that point forward - **because his track record is exemplary and puts him in the top tier of money managers in terms of returns.**

- **SECOND**, you gain unlimited, round-the-clock 24/7 access to our Subscribers-Only **Big Money Watch** Web Site. Here you can track:

The **Big Money Watch Model Portfolio** -- for those who want to cut right to the chase and get just the best stock recommendations, our Model Portfolio "cherry picks" the best investment ideas from the money managers we follow.

The **Big Money Watcher** -- this section of our Web site is where you go to see the model portfolios we maintain for each of the 15 top money managers whose trading activity we monitor.

**Think of the Big Money Watcher as the raw data that is used to generate our newsletter.**

For each manager, we provide a DETAILED PROFILE so that you can get to know managers you might not be familiar with, a complete holdings table that is easily sortable, and some pre-made screens to make it easy to find new investment ideas. Each month, we will add a new manager to this section, increasing our coverage and sector focus.

- **THIRD**, you get our **E-mail Alerts** to keep you informed of important developments on the companies we cover between monthly issues. Anytime we close a position, we will send you an e-mail alert letting you know it's time to sell.
- **FOURTH**, your 1-year subscription includes 4 special Quarterly Reports that cover the combined activity of the fund managers we follow, making it easy to see what the group as a whole is buying and selling.
- **FIFTH**, you get, absolutely FREE, "**All Big Money Watch's Special Reports**" Quantitative Investing: The philosopher's stone".

**[Subscribe NOW to 100% Free Trial to Big Money Watch.](#)**  
**[PLUS, 2 Special Profit Reports absolutely FREE!](#)**

## The "Big Boy" Money Managers DON'T want you to know what they're Buying. here's why

**May I be frank?** The "big money" managers we profile in **Big Money Watch** would rather you NOT know which stocks they are buying.

And with good reason: You see, they charge clients a small fortune to manage their money for them. So understandably, they don't want to give their stock picks away for nothing.

Fortunately for us (and unfortunately for them), the law requires institutional investment managers who exercise investment discretion over \$100 million or more in certain securities defined by law to make disclosures in their holdings.

But wait, it gets better: Not only do we have this data, but we make sense of it for you. When you make the wise decision to subscribe to **Big Money Watch**, you get to see what the world's best fund managers have been doing with their capital.

**The simple truth is this: I follow the disclosures of the top 15 managers and select the cream of the crop -- only their best trades for our Model Portfolio.**

And here's a very important note: Most of the fund managers we track at **Big Money Watch** run hedge funds that you can't buy into unless you are well-connected -- and many of these hedge funds have a minimum investment of \$10 million or more.

### **Interested in "hiring" the nation's top-performing money managers to manage YOUR portfolio -- for less than \$1.10 a day?**

So, if you "just happen" to have \$10 million to invest, you can pick any one of these top managers and hire them to manage your money for you. (Easy enough, right?)

BUT if your budget is somewhat more modest, then you can still track every stock pick of all 15 of our top-performing money managers. As listed in our model portfolios, that comes out to as little as \$1.10 a day.

To get your 2 Special Profit Reports from Big Money Watch absolutely FREE, click below now:

And here's some news that should whet your investment appetite: **You'll also reduce your commissions.** That's right! Institutional buys and sells can take several months to pan out. We, on the other hand, hold most of our positions between 3 and 12 months. and trade infrequently. And have no worries: You have **Big Money Watch's.**

## 30 Day HASSLE-FREE Money Back Guarantee

Put us to the most important investment test there is. YOURS! Just try my **Big Money Watch** service with No-Risk or commitment for the next 30 days. (Try finding a hedge fund manager who offers the same deal!)

If you don't see how your portfolio is TURBO-CHARGED for present and future profits and are not 100% satisfied with **Big Money Watch** -- you may cancel within 30 days for a never be charged anything. That is my firm commitment to you!

Listen - whatever you decide, the **FREE** Profit Guide BONUS REPORT "**Technology Stocks: Back to the Future**" is yours to keep. just our way of saying "thanks" for giving **Big Money Watch** a try.

Oh, I almost forgot: Once you subscribe and get access to our blogs, I will give you the name and further info on that food giant that Buffet, Icahn, and Pelzer are banking on for BIG profits.

To higher and higher profits,

Maurice Barnfather,  
Editor, **Big Money Watch**
