Guess What?? You Can Now Have Them All!

Dear Sir,

Allow me to be direct and to the point. I'm Michael Thompson and director of research at a large nutraceutical company called AlMark Laboratories. When it comes to research it's very important to know your competition. And to tell you the truth I'm not a "happy camper" at what I am discovering! In fact I'm downright irritated by what's going on in this industry.

It seems that every "Tom, Dick, and Harry" are now in the male enhancement business. I'm sure your mailbox is loaded with every concoction imaginable. And it's not surprising that these products are not doing the job. Basically, I'm FED UP with all the "smoke and mirror" empty promises.

In plain English: Men like yourself are stressed with work... relationships... and everything else... and all you want is a male enhancement product that'll give you total control of your MANHOOD now!

You want a thick stiff erection... not LATER... but NOW! I'm talking about an erection of steel. One like you used to get when you woke on a Saturday morning as a teenager. Strong and powerful!

That's why I made "the call" down to the lab and gave an ultimatum to my Top-Gun research team to come up with a solution. "Enough's enough," I told them.

This is what I demanded:

"Create a safe, natural product that works on demand! A formula that'll give men the erection that they need... when they need it! No excuses! I don't want any man to be disappointed again about satisfying their lover!"

Its Nickname Is “BIG RED!”

That's what we called it here at the plant! I'm sure you remember the movies where you saw the President pick up “the red phone” in the Oval Office knowing it's his job to hit the emergency button to launch THE NUKES... if all else fails!

Once the codes are set... there's no turning back. It's LIFT OFF time. And that's what you should expect from a male enhancement product. And THAT'S exactly what you'll get from just two of these red capsules- BIG on delivery... SMALL on size!

The “Sex Insurance Policy” All Men Need To Have!

Let's face it: From here to eternity there are only THREE things you need to happen in the bedroom.

You want:

1. A guarantee that every time you're in the saddle...you'll have an erection you can count on!
2. The ability to recover not within hours...but within minutes!
3. To finish knowing your lover got the best mind-blowing orgasm of her life!

And here's the **ONE** thing you don't want to hear! “Don't worry honey it happens!”

Don't let this comment ever enter your bedroom again! It doesn't have to be this way!

Never again will you have to make up excuses for having a limp penis! My research team has finally cracked the “erection code”. They have developed a formula that's guaranteed to WORK!

The “Fail Safe” Answer To A Penis That Doesn't Want To Respond!

Allow me to introduce to you the ultimate male enhancement product of the 21st century...that's taking the market by storm. Its clinical name is **Redroxin**.

And regardless if you're in your 50's...60's...or older than 70- **Redroxin is one of the most powerful, natural solutions to getting what you need**—a rock-hard stiff, “fail safe” erection that will transform you into a marathon lover.

Want To Know Why Nothing Seems To Work For You? (The Answer Won't Surprise You!)

Let me ask you something: Have you really looked at the formulas that you're taking now?

I'll bet you anything there's absolutely nothing in those tiny little tablets. Why? Your guess is as good as mine. Maybe the ingredient cost? Insufficient amounts of the right ingredients? Or is it just that they don't care! It doesn't matter. What does is... that someone's dropping the ball and you shouldn't have to pay for it, right?

That's why at *Almark Laboratories* I've had my research department make sure that **Redroxin** had every...single...ingredient...needed, along with the right blend and dosage levels.

And here's the best part: **Redroxin** is so powerful it takes only two capsules for you to get the full impact of its strength!

BUT I must warn you:

Taking more than two **Redroxin** can deliver too much for one man to handle (or woman.) I'm sure no one has to remind you that a good night's sleep is important for a productive day. Make no mistake: If you don't want to be "busy" with your honey all night I suggest you follow the usage directions carefully!
